

GAS COMPANY WANTS ITS CASE AGAINST STATE

Federal Court Holds That the Cases Are Removable.

It Can and Will Try the Issues Involved.

THE OPINION IS UNANIMOUS

Injunction Proceedings Are Taken Up at Once.

The Company Will Seek an Immediate Decision.

Kansas City, Kan., April 26.—Federal court judges today decided against the state of Kansas and the public utilities commission on every vital issue touching the natural gas case. In an opinion by Judge Sanborn the court held that the gas rate case was removable and that the federal court could and would try the issues involved in a suit to restrain enforcement of a 28 cent rate order by the Kansas utilities commission. Judges Campbell and Booth, sitting with Judge Sanborn in the case, concurred in the opinion.

The decision by Judge Sanborn followed two days of argument taking in which both the state and attorneys for the Kansas Natural Gas company sought to establish their claims as to jurisdiction. The gas company sought a trial of the case on its merits in the federal courts. The state, both through the attorney general's office and the state public utilities commission, sought to hold the trial of the case in the state courts. They declined the question of an injunction against the order of the Kansas commission was not of such a nature as to raise a question of removability to a federal tribunal. The federal judges held in favor of the gas company.

This afternoon the attorneys took up the injunction proceedings. Almost immediately following the Sanborn decision, gas company attorneys announced they were ready for trial on the question of a permanent injunction against the utilities commission's order for 28 cent gas. In testimony by briefs and affidavits, they will seek to establish their claim that the gas rate is confiscatory and that the commission's order is in violation of the federal constitution in view of existing expense for producing gas and delivering it to Kansas and Missouri towns. The issue at this time is whether the Kansas towns, Missouri towns affected by the case have been given until May 22 to answer.

Testimony to be offered before the federal judges in the injunction proceedings will in a general way cover the proceedings before the utilities commission. The gas company will conclude its case with an argument for a permanent writ against the Kansas commission and the gas company receivers. Such an order would effectively block the enforcement of the 28 cent gas order and according to the claims of the gas company, would result in a higher rate to Kansas consumers.

It is probable that the taking of testimony before the federal judges will be concluded late Thursday afternoon. The gas company will seek an immediate decision. Should their application for an injunction be granted, they will at once apply for a higher rate.

Reasons for the Ruling.

The judges gave two reasons for their ruling which supports the contention of the receiver.

First—"That the court never relinquished its control of the property to the state receiver who was given control under appointment of state court, this being acquiesced in by the federal court, and the receiver not only had the right but was bound by duty to seek redress in the federal court if he thought it necessary."

Second—"That the receiver had the right to appeal to a competent court and the federal court was competent."

John Landon, receiver, seeks to raise the gas rate to 37 cents, it is charged.

The hearing on the order of the Missouri public service commission to set the price at 45 cents in St. Joseph was set for May 22 at St. Paul. The Missouri board and the Missouri cities interested will keep their representatives at the Kansas City, Kan., hearing with the right to interpose objections and take part in the argument. The hearing may take another week.
